

## ISRAEL JOURNAL OF MATHEMATICS

## TABLE OF CONTENTS, VOLUME 190, 2012

BAUMGARTNER, U., R. G. MÖLLER AND G. A. WILLIS <i>Hyperbolic groups have flat-rank at most 1</i>	365
BELL, J. P. <i>Transcendence degree of division algebras</i>	195
BESSER, A. <i>On the syntomic regulator for <math>K_1</math> of a surface</i>	29
BLAIER, N. <i>A characterization of the disc via a Hessian equality</i>	1
BRECH, C. AND P. KOSZMIDER <i>On universal Banach spaces of density continuum</i>	93
CAPRACE P.-E. AND N. MONOD <i>A lattice in more than two Kac–Moody groups is arithmetic</i>	413
CHEONG, O., X. GOAOC AND A. HOLMSEN <i>Lower bounds to Helly numbers of line transversals to disjoint congruent balls</i>	213
CULLER, M. AND P. B. SHALEN <i>Margulis numbers for Haken manifolds</i>	445
DE LA ROSA, M., L. FRERICK, S. GRIVAUX AND A. PERIS <i>Frequent hypercyclicity, chaos, and unconditional Schauder decompositions</i>	389
DRMOTA, M. AND J. F. MORGENBESSER <i>Generalized Thue–Morse sequences of squares</i>	157
EINSIEDLER, M. AND S. KADYROV <i>Entropy and escape of mass for <math>SL_3(\mathbb{Z}) \backslash SL_3(\mathbb{R})</math></i>	253
FERREIRA, W. AND P. ROITMAN <i>Area preserving transformations in two-dimensional space forms and classical differential geometry</i>	325
FRERICK, L. See M. DE LA ROSA	
GLASNER, E. AND M. MEGRELISHVILI <i>On fixed point theorems and nonsensitivity</i>	289
GOAOC, X. See O. CHEONG	
GRIESMER, J. T. <i>Sumsets of dense sets and sparse sets</i>	229
GRIVAUX, S. See M. DE LA ROSA	
HOLMSEN, A. See O. CHEONG	
KADYROV, S. See M. EINSIEDLER	
KANG, J. <i>Existence of leafwise intersection points in the unrestricted case</i>	111
KOSZMIDER, P. See C. BRECH	
KOWALSKI, P. <i>Schanuel property for additive power series</i>	349

KUPFERMAN, R. AND Y. SHAMAI	<i>Incompatible elasticity and the immersion of non-flat Riemannian manifolds in Euclidean space</i>	135
MEGRELISHVILI, M.	See E. GLASNER	
MÖLLER, R. G.	See U. BAUMGARTNER	
MONOD, N.	See CAPRACE P.-E.	
MORGENBESSER, J. F.	See M. DRMOTA	
MUNTEANU, R.-B.	<i>A non-product type non-singular transformation which satisfies Krieger's property A</i>	307
NEWELSKI, L.	<i>Model theoretic aspects of the Ellis semigroup</i>	477
PERIS, A.	See M. DE LA ROSA	
PINASCO, D. AND I. ZALDUENDO	<i>A probabilistic approach to polynomial inequalities</i>	67
QIAN, G.	<i>A character theoretic criterion for a <math>p</math>-closed group</i>	401
ROITMAN, P.	See W. FERREIRA	
SHALEN, P. B.	See M. CULLER	
SHAMAI, Y.	See R. KUPFERMAN	
SPIELMAN, D. A. AND N. SRIVASTAVA	<i>An elementary proof of the restricted invertibility theorem</i>	83
SRIVASTAVA, N.	See D. A. SPIELMAN	
WILLIS, G. A.	See U. BAUMGARTNER	
ZALDUENDO, I.	See D. PINASCO
