

## TABLE OF CONTENTS

### VOLUME CXXIII

|  |     |
|--|-----|
| MEI-CHU CHANG — Short character sums for composite moduli  | 1   |
| ROBERTO PEIRONE — Existence of self-similar energies on finitely ramified fractals   | 35  |
| D. J. SIXSMITH — A new characterisation of the Eremenko-Lyubich class  | 95  |
| ALBERTO PARMEGGIANI AND LORENZO ZANELLI — Wigner measures supported on weak KAM tori   | 107 |
| WENDONG WANG AND ZHIFEI ZHANG — On the interior regularity criteria and the number of singular points to the Navier-Stokes equations               | 139 |
| T. V. KHANH AND G. ZAMPIERI — Precise subelliptic estimates for a class of special domains   | 171 |
| PAVEL ZORIN-KRANICH — A nilpotent IP polynomial multiple recurrence theorem  | 183 |
| ANDERS OLOFSSON — Differential operators for a scale of Poisson type kernels in the unit disc  | 227 |
| MARIUS GHERGU, VITALI LISKEVICH, AND ZEEV SOBOL — Singular solutions for second-order non-divergence type elliptic inequalities in punctured balls | 251 |
| DMITRII V. PASECHNIK AND BORIS SHAPIRO — On polygonal measures with vanishing harmonic moments   | 281 |
| VERONICA FELLI AND ALBERTO FERRERO — On semilinear elliptic equations with borderline Hardy potentials   | 303 |
| DEAN BASKIN — Equipartition of energy in geometric scattering theory   | 341 |
| ALEXANDER GORODNIK AND RALF SPATZIER — Exponential mixing of nil-manifold automorphisms  | 355 |
