

TABLE OF CONTENTS

VOLUME XCIII

BERNARD LASCAR ET RICHARD LASCAR — Équation des ondes pour un opérateur hypo-elliptique à caractéristiques doubles sur une variété symplectique et asymptotiques géométriques	1
JANINA KOTUS AND MARIUSZ URBAŃSKI — Geometry and ergodic theory of non-recurrent elliptic functions	35
SÉBASTIEN FERENCZI, CHARLES HOLTON AND LUCA Q. ZAMBONI — Structure of three-interval exchange transformations III: Ergodic and spectral properties	103
RADU C. CASCAVAL, FRITZ GESZTESY, HELGE HOLDEN AND YURI LATUSHKIN — Spectral analysis of Darboux transformations for the focusing NLS hierarchy	139
A. BOIVIN AND B. JIANG — Uniform approximation by meromorphic functions on Riemann surfaces	199
O. MARTIO, V. RYAZANOV, U. SREBRO AND E. YAKUBOV — Mappings with finite length distortion	215
SUNHI CHOI — The lower density conjecture for harmonic measure	237
LEE-PENG TEO — The Velling–Kirillov metric on the universal Teichmüller curve	271
A. DALL’ACQUA, H.-C. GRUNAU AND G. H. SWEERS — On a conditioned Brownian motion and a maximum principle on the disk	309
RALPH CHILL AND YURI TOMILOV — Analytic continuation and stability of operator semigroups	331
NIKOS FRANTZIKINAKIS — The structure of strongly stationary systems	359
