

TABLE OF CONTENTS

VOLUME LXXXII

| | |
|---|-----|
| ANTONIOS D. MELAS — On the growth of universal functions | 1 |
| CRISTÓBAL GONZÁLEZ — Differential inequalities associated with weighted symmetrization processes on the real line | 21 |
| HIROAKI MASAOKA AND SHIGEO SEGAWA — Martin boundary of unlimited covering surfaces | 55 |
| T. H. MACGREGOR — Radial and transverse variations of analytic functions | 73 |
| HAJER BAHOURI, PATRICK GÉRARD ET CHAO-JIANG XU — Espaces de Besov et estimations de Strichartz généralisées sur le groupe de Heisenberg | 93 |
| ARTUR NICOLAU, JORDI PAU AND PASCAL J. THOMAS — Smallness sets for bounded holomorphic functions | 119 |
| YASUHIRO GOTOH — Domains with growth conditions for the quasihyperbolic metric | 149 |
| OLIVER GEBUHRER AND ALAN L. SCHWARTZ — Harmonic analysis on compact commutative hypergroups: The role of the maximum subgroup | 175 |
| JÜRGEN GRAHL — Some applications of Cartan’s theorem to normality and semiduality of gap power series | 207 |
| LAWRENCE A. HARRIS, SIMEON REICH AND DAVID SHOIKHET — Dissipative holomorphic functions, Bloch radii, and the Schwarz Lemma | 221 |
| MICHAEL DREHER AND MICHAEL REISSIG — Propagation of mild singularities for semilinear weakly hyperbolic equations | 233 |
| MIKIHIRO HAYASHI, YASUYUKI KOBAYASHI AND MITSURU NAKAI — A uniqueness theorem and the Myrberg phenomenon for a Zalcman domain | 267 |
| J. A. PFALTZGRAFF AND T. J. SUFFRIDGE — Norm order and geometric properties of holomorphic mappings in \mathbb{C}^n | 285 |
| V. V. ANDRIEVSKII AND I. E. PRITSKER — Convergence of Bieberbach polynomials in domains with interior cusps | 315 |

| | |
|--|-----|
| SHUN SHIMOMURA — Value distribution of Painlevé transcendents of the first and the second kind | 333 |
| PENTTI JÄRVI — On the zeros and growth of quasiregular mappings | 347 |
| NORBERT STEINMETZ — On Painlevé's equations I, II and IV | 363 |
| MARK L. AGRANOVSKY AND YAKOV KRASNOV — Quadratic divisors of harmonic polynomials in \mathbb{R}^n | 379 |
